

Benefits

- **Animated visual display highlighting drive-thru progress and road blocks**
- **Enhances customer satisfaction through improved drive-thru times**
- **Encourages team building to meet and exceed drive-thru expectations**
- **Easy to set goals by day or day part**
- **Excellent management tool**
- **Enterprise management software allows data gathering from any access point**
- **Tracks drive-thru performance**
- **Deters theft through itemized statistics**
- **Software can be set to create reports for specific store needs**
- **A creative tool to develop crew and store competitions**

Features

- Automated drive-thru displaying vehicle progress
- Time parameters are color coded to illustrate drive-thru performance
- Clear, concise and simple graphics
- Easy to customize color coding variables by day part
- Critical information is available at a glance and can highlight road blocks to performance
- Adaptable to fit any screen size
- Simplified, user friendly software interface
- Easily integrates with most POS systems
- Service goals can be defined and measured by day part
- Time can be displayed in minutes and/or seconds
- Easily adaptable to most standard loop configurations
- Automated enterprise reporting
- Constant real time performance detail and reporting
- Adaptable for multiple display screens
- Includes a preview loop option to assist in pre-rush planning

DTS-1000 Drive-Thru Statistical Reporting software

In the quick service industry, time can cost you money and a loss of business. Using a computer, in the store or remotely, you can retrieve statistics that are collected by your system. These statistics can help you:

- Increase speed of service and enhance customer satisfaction
- Set sales and drive-thru goals
- Deter employee theft
- Identify and reward productive employees
- Improve your drive-thru operations

* Content of statistical report depends on number of loops, POS and other parameters that you choose.
